## Post Graduate INPP™ One Year Practitioner's Course addressing Neuro-Motor Immaturity (NMI).

### 2025: Online & Brisbane

ABN: 40 246 591 895

This course trains practitioners in the INPP™ method of diagnosis and treatment of Neuro Motor Immaturity (NMI). It is a 4-module programme conducted over 6 months with assessment in the theory and practice of the INPP™ Method.

Successful completion of the course leads to Licentiate membership of INPP™ Australia and INPP™ International. This enables practitioners to practice and promote the INPP™ method in their work and use INPP™ Trade Marked materials.

#### Background:

Established by Dr Peter Blythe (PhD) in 1975, the Institute for Neuro Physiological Psychology (INPP) is a private research organisation investigating the effects of immature central nervous system (CNS) functioning in children with Specific Learning Difficulties and adults suffering from Agoraphobia and Panic Disorder. Dr Blythe and Sally Goddard Blythe (INPP International Director) devised and developed reliable methods of assessment and non-invasive intervention programmes that have **assisted many children and adults with problems linked to immaturity in central nervous system functioning**. Publications relating to the efficacy and effectiveness of the INPP method are listed on the INPP UK website ([www.inpp.org.uk](http://www.inpp.org.uk)). INPP is a self-funding organization involved in research, clinical practice, and training in the methods developed at INPP.

In the late 1970's Dr Peter Blythe began providing training courses for small groups of professionals in the United Kingdom and Sweden. During the 1990's a formal training course in the methods developed at INPP was established in the United Kingdom. This course is **now available in over sixteen countries**. INPP International is the certificating body for all countries providing training in its method. **Dr Christine Payard (PhD)** of Integrating Thinking™, **is the Australian INPP Principal delivering the INPP™ training programs under licence in Australia**. (Information regarding training programs in Australia can be found on the website: [www.inppaustralia.com.au](http://www.inppaustralia.com.au) and/or [www.integratingthinking.com.au](http://www.integratingthinking.com.au) ).

Neuro Developmental Educator.

(Director *Integrating Thinking*, INPP Australia Principal)

B Ed (Hons), M Ed Studies (Lang & Lit), PhD, GAICD.

Neuro-Developmental Educator.

Christine is a registered teacher and education specialist with special research interests in literacy education, student thinking, professional learning and learning support. She has worked with primary, secondary and tertiary students in many different contexts including private and state schools, University and TAFE institutions; with teachers and educators through private and organisational consultancy work; with employees and management in private businesses, local government, manufacturing and industry groups. She has over 30 years of experience in Education and Business Management including Allied Health Practice.

As an experienced educator and trained Neuro-Developmental Educator/Therapist, Christine uses and trains others in the INPP Method™. The INPP™ method is used to investigate and develop programmes that address underlying physical factors such as immature balance, coordination, visual and auditory processes which can negatively impact learning, performance, and achievement. Primitive and postural reflex assessments are at the core of the programme.

In 2013 Chris was appointed INPP™ Principal Practitioner in Australia by Sally Goddard Blythe (Director INPP™ International). Chris now delivers training programmes in the INPP™ method and is responsible for administration and co-ordination of INPP™ training and licencing processes in Australia. She studied the INPP™ method directly with Sally Goddard Blythe and the late Dr Peter Blythe (PhD).

Chris is committed to ongoing research and study in Neuro-Developmental Education and works towards establishing networks with other health care and educational support practitioners equally passionate about learning and supporting learning.

Chris has been an Associate member of the Australian College of Behavioural Optometrists, a member of the Australian Association for Research in Education, the Australian College of Educators, ACSO and is a Graduate of the Australian Institute of Company Directors. She has delivered presentations to international and national conferences in various professional fields including Behavioural Optometry, Kinesiology, Childhood development and Early Childhood Education. She has also conducted consultancy and project work with Brisbane Catholic Education, James Cook University and ACER in Teacher Education, Learning and Teaching Professional Development, System Support, and implementation of the Australian Curriculum.

---

*"I am passionate about learning, learning about learning, and sharing information with others who assist those who struggle to learn."*

---

*Learning is a complex activity incorporating physical, cognitive, behavioural, and social elements that can enhance or hinder learning and educational experience. Thinking, talking about, and looking at ways to integrate and develop these aspects of learning is the basis of **Integrating Thinking** education consultancy services for children, adults, teachers and other health care and education professionals.*
